Has the cable parted? In traversing that wide reach of two thousand miles, how many a profound valley is that slender cord suspended across, like the land wire between its posts? How many a rocky summit may it not rest upon, swinging and wearing in currents and waves, in respect to which, after all assertions and pre- sia, and nothing but Dyspepsia, (as advertised in another tended soundings of investigators, we really know nothing? How many thousands of submarine casualties reputation in Philadelphia, that Physicians, acquainted with may it not be exposed to, of which we have no idea or its properties are using it themselves and prescribing it to strong probability of accident to the wire does exist, strong enough, indeed, to prepare the public mind for the melancholy diappointment, which its rupture must, if it occur, bring home to the universal sense. The denouement will be awaited with painful anxiety. N. Y. Times.

English Apprentice System. A correspondent of the New York Journal of Commerce, writing from the United States ship Powhatan. which has lately spent some weeks at the Cape of Good Hope and Mauritius, says that in August, 1834, when emancipation took place in the British empire, there sugar was produced in 1813, one hundred and fifty thou- valuable prescription to any person on the receipt of one on them. sand tons are produced now. The price has also risen stamp to pay postage. Address with the increased production, if not in the same ratio: for instead of three cents per pound as formerly, it now commands ten and eleven. An increased demand for labor of course followed, and as this could not be furnished by the island, or the importation of the African slaves, a system was devised and organized with the concurrence of the government of the island and the government of India, to obtain laborers from the redundant population of that country under the name of immigrant laborers. Agents were appointed to procure and ship them, and a great depot was established at Port Louis for their reception, and where they were to remain till contracts were made with the planters for their services. It is hardly worth while to pause and inquire why this is so, for it is pretty well understood that it is the result of a combination of causes, among which are an injudicious construction of roads and parallel lines where they were not needed—the use of credit instead of money, whereby the cost of construction has been in thorized Agent, will insure a bottle, containing 50 Pills, by most cases doubled, and in many quadrupled, with an return mail. entail of interest that has, or is rapidly eating up the real value of the investment-incompetency and extravagance on the part of managers, and last, though not least, the celebrated political axiom, that 'to the victors belongs the spoils.' In this we would not be understood as advocating consolidation for monopoly, for extorting from exporters and travelers exorbitant prices; but simply to urge upon those having the power, the necessity of doing something towards rescuing the hundreds of milnons of dollars now invested in railroads from total loss, by bringing order out of chaos and demanding from those who make their fortunes out of railroads a fair equivalent for the last 14 years a resident of Wilmington, N. Paraguay Expedition Contracts.—It has already been stated that the United States government has made arrangements with the Cromwell line of steamers for the use of some of the boats of the line for the Paraguay expedition. The boats in question are the Memphis, Thomas Swann, Atlanta and Potomac. These steamers are to undergo immediate overhauling at New York for greater strength, and as soon as possible sail for their destination. It is stated the government pays \$10,000 a month for each steamer and supplies the coal-the owners paying for the crew. The contract is for six months. The fleet will be commanded by an experienced naval officer.

SPIRITS TURPENTINE-After closing our report on Thursday last the price advanced one cent, with sales at 44 cents per gallon, and the market since has ruled steady at that figure. The sales of the week are as follows:

Thursday ... 200 bbls. at 44 cents # gallon. Friday.... 800 ... 44 gallon. Saturday... 100 ... 44 Monday.... 800 ... 44 Tuesday.... 56 ... 44 400 44 Wednesday.

Rosin-The market for all grades has continued to rule quiet since our last, owing mainly to the recent advance in some movement to be made in the article in a day or two. In Pale no sales have been reported, but we learn that some private transactions have taken place; there is only a mod- a 5s 11d; white do., 6s 3d a 6s 6d.; white southern 6s 9d a 7s erate stock on market, and a fair demand exists. We quote 4d. Corn was dull. at \$4 to \$5 50 \$6 bbl., as in quality. No sales in No. 1, and were steady. Lard quiet at 60s 6d a 62s. quotations are nominal. See table. In No. 2 we note sales ceipts of Common have been meagre, and there is only a 400 bbls. having changed hands (on Monday) at \$1 20 for

TAR-Has come in very slowly for some time, which has caused a firmer feeling in the market, and we note a fair demand from shippers. Only one or two small parcels received and sold at \$1 70 \$9 bbl.

BEEF CATTLE AND SHEEP .- For beeves there is but little demand from butchers, and the market rules quiet; one small drove of grass fatted was brought in a few days since and taken at 6 cents per lb. No SHEEP have been received that we can hear of, and the market is poorly supplied ;-a few droves would find ready sales at quotations, according to quality. See table.

BARRELS .- In the market for empty Spirits Turpentine barrels we have no change of importance to report. The stock on market continues exceedingly light, and we notice a fair demand. A few parcels have been received iduring the week, and we note small sales of second hand ones at \$25 BAGS No. 1 PERUVIAN, daily expected. For \$1 90 a \$2 each as they run; selected would bring higher Sept. 14 figures.

COTTON.-Little or none has been offering since our last. and the market is quiet. In the absence of sales quotations 10 Sept. 9.

ers. We quote from the granaries at 90 a 95 cents per bush-

FISH.—For Mullets we note a moderate enquiry, and only small parcels arriving. One small lot (18 bbls.) received on

Tuesday and sold at \$7 for pine bbls. FLOUR .- The arrivals of State brands per railroad have been meagre for the week just ended, though the stock in first hands appears to be fully sufficient for present purposes. The demand has been confined to small lots for retailers' use, and only a few sales have taken place at figures a shade higher than quoted in our last. On Saturday a small parcel was taken at \$7 for superfine and family, and also on Tuesday at \$7 for superfine. It is generally held at latter figure, though a lot of any moment would hardly sell at it. See table. There are several parcels of Northern in store, which retails at about the same price as State brands.

GRAIN.-For CORN, there has existed a moderate demand from dealers during the past week, and the market has ruled firm. Only 3,920 bushels received since our last, of which 2.120 do. was intended for the interior, and the balance changed hands on private terms—supposed at 75 cents per & Martin; with stone. bushel. The supply on market has become somewhat reduced, and a few cargoes of good quality would sell readily at 724 a 75 cents. OATS. The market is at present poorly supplied, as there have been no arrivals for some time past. In the absence of sales we cannot give a correct quotation .- PEAS .- The demand for Cow has been limited for several weeks past, and dealers have a supply in store fully sufficient for present purposes. Last sale was at 65 cents per bushel. RICE. The market continues to be moderately supplied with clean, and we note only a light demand from the trade. See table for prices.

HAY-Siuce our last there have been no receipts of either description that we are aware of, and consequently no sales have been effected. Dealers have a heavy stock on hand, and there is scarcely any demand. The lot of 430 bales Eastern reported in our last as on market, changed hands on terms not made public. We refer to table for last sales from

LIME-No late receipts, but there is a heavy stock at present in dealers hands, and only a retail demand. We quote

from store at 95 cents a \$1 78 cask. Molasses-In the absence of receipts the stock of Cuba n first hands has become somewhat reduced; it is, however, sufficient for the demand at present existing. We refer to our table for prices from store and wharf-our lowest figure (28 cents) being for lots of 5 hhds. and upwards.

POTATOES-Sweet continue to be brought in quite freely, and meet with ready sale at 80 a 90 cents # bushel. Irish are in small stock, but sufficient for the demand, which is limited. See table for prices.

PROVISIONS .- In N. C. cured Bacon we have no change to notice in our remarks of last week. The stock on market is moderate, and retailers do not seem in the least disposed to purchase at present rates, consequently the sales have been confined to small lots in the retail way at 14 cents for fine 1 75 @ 2 00 | hog round, and 15 cents for hams; -these figures could not be obtained for a lot of any size, unless it is of extra quality. The arrivals of Western continue light, and there is only a small stock in first hands. We note a moderate de-124 mand, and quote sales from store and wharf at 9 cents for shoulders and 107 a 11 cents per lb. for sides, according to quantity and quality .- LARD .- Some parcels of N. C. make are on market, but no sales; held at 14 a 15 cents .-The supply of Western is small, though we notice merely a retail demand. Sells from store at 12 a 121 cents per lb. PORK.—The market continues to be well supplied with teway & Pritchett. Northern, and has ruled quite dull during the week. Only small sales have taken place from store at prices ranging

within quotations. See table. SALT .- The market for Liverpool ground rules exceedingy firm. There is a brisk demand existing, and an unusually small supply in store. A lot of 1,000 sacks was received coastwise a few days since, and sold in lots at 90 cents per sack. In Alum there is nothing worthy of note doing. The stock in store is heavy, and there is but little demand. See table for prices.

SHINGLES-Arrive slowly, and are decidedly dull of sale. See table for quotations. TIMBER-Has been brought to market sparingly for some weeks past, owing mainly to the low stage of the river, and we note a moderate demand from millers. Only two rafts

FREIGHTS .- In coastwise rates we have no change of imrates quoted in our table.

NEW YORK, Sept. 14 .- Flour is dull; sales of 10,000 bbls. State at 4 85a\$4 95, Ohio 5 60 a \$5 70, and Southern 4 25 a\$5. Wheat is depressed, sales of 25,000 bushels, red at 1 124a\$1 20. white at 1 25a\$1 38. Corn, sales of 67,000 bushels, white at 80 a 83 cts. Pork is dull, sales of Prime at 15/25a\$15 50 .-Whiskey quiet at 242 cents. Sugar is steady at 7a81 cts.—Spirits Turpentine firm at 48 cts. Rosin is firm at 1 72a\$1 75. Rice is firm, Freights firm. MOBILE, September 14 .- The sales of Cotton to-day were

750 bales, at 12a12½c. # th for Middling. The sales of three days comprise 2350 and the receipts 1950 bales. Cotton freights to Liverpool are quoted at 1d. # lb. and Sterling Exchange at 8a81 # cent. premium. CHARLESTON, S. C., Sept. 14 .- The Evening News re-Corton.-Received since the 1st inst., 1,909 bales, and

sales for the week ended 14th, 1,141 bales, at prices ranging RICE.—With reduced receipts, prices have continued firm

extremes ranging from \$2 75 to \$3 37½—the bulk of the
sales, for fair to good quality at from \$3 12½ to \$3 25. Common prime at \$3 37½ is very scarce. Received the past week 1,224 tierces; exported in same time 1,139 tierces. Remainng on shipboard, not cleared, 180 tierces.

GRAIN.—Corn 78 cents per bushel, bags included, in lots to suit. Oats 45 a 50 cents per bushel. Wheat, red \$1 20; white, \$1 30 per bushel. FLOUR.-Super. \$6 a \$6 25 per bbl. Sugar.—Muscovado 81 a 10 cents. Molasses. -30 a 31 cents per gallon, for Cuba. Coffee. -114 a 112 cents for Rio, as in quality.

Cotton-Wanted for home use.

LIVERPOOL, Sept. 1 .- Sales of cotton for three days 19,000 bales, including 1,000 on speculation, and 2,000 for export the remainder to the trade. The market closed quiet, but the tip of my head is well studded with a promising crop of rates of freight, and the scarcity of shipping; several vessels, steady, with a declining tendency on inferior qualities, and young hair, and the front is also receiving its benefit. I however, arrived on yesterday, which will no doubt cause quotations were barely maintained. Manchester advices were favorable. Breadstuffs .- Flour was firm at an advance of 6d. closing quiet. Wheat was higher, closing quiet; red western 5s 6d

Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a decided cure.

This is a purely vegetable compound, prepared on strictly scientific principles, after the manner of the celebrated Hol land Professor, Borhave. Because of its great success in portance to report on last Thursday's prices. The small most of the European States, its introduction into the United number of vessels arriving and now in port has caused the States was intended more especially for those of our fathermarket to rule firm, and vessels readily obtain cargoes at land scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful medicinal virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally, instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, infusing new health and vigor NOTICE.—Whoever expects to find this a beverage will be disappointed; but to the sick, weak and low spirited, it

will prove a grateful aromatic cordial, possessed of singular remedial properties. CAUTION: The great popularity of this delightful Aroma has induced many imitations, which the public should guard against purchasing. We call then upon the bald, the gray, or diseased in scalp, to use it; and surely the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its praise is upon the tongue of thousands.

The Agent for Prof. Wood's Hair Restorative in New Haven, received the following letter in regard to the Restora-

tive, a few weeks since : DEEP RIVER, Conn., July 23, 1856. Mr. Leavenworth-Sir : I have been troubled with dan druff or scurf on my head for more than a year, my hair began to come out, scurf and hair together. I saw in a New Haven paper about "Wood's Hair Restorative" as a cure I called at your store on the 1st of April last, and purchased one bottle to try it, and I found to my satisfaction it was the thing: it removed the scurf and new hair began to grow; it is now two or three inches in length where it was all off. I have great faith in it. I wish you to send me two bottles more by Mr. Post, the bearer of this. I don't know as any many bottles after it is known here. Yours with respect, RUFUS PRATT.

PHILADELPHIA, Sept. 9, 1856. Prof. Wood-Dea. . ir : Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering-in fact BALD. I have used but two half-pint bottles of your Restorative, and now have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce Yours respectfully, D. R. THOMAS, M. D., many others to try it. No. 464 Vine street.

VINCENNES, IA., June 22, 1853. Prof. O. J. Wood: As you are about to manufacture and vend your recently discovered Hair Restorative, I will state, for whomsoever it may concern, that I have used it and known others to use it-that I have, for several years, been in the habit of using other Hair Restoratives, and that I WILMINGTON BRASS AND IRON FOUNDRY AND cleanses the head of dandruff, and with one month's proper use will restore any person's hair to the original youthful color and texture, giving it a healthy, soft and glossy appearance; and all this, without discoloring the hands that apply it, or the dress on which it drops. I would, therefore, recommend its use to every one desirous of having a fine color and texture to hair. Respectfully yours, WILSON KING.
